**Date:** Thursday, February 13, 2014 8:27:00 AM

---

Since the new value is not listed on KDHE's website, can one of you send me an email with the official values so I can provide them to Clean Harbors?

Thanks.

We will use these criteria moving forward; however, we have not identified significant 1,4-dioxane impacts within NIC.

**Subject:** 1,4-Dioxane

Is KDHE using the newly calculated residential soil to ground water criteria for 1,4-dioxane in the NIC site or for NIC PRPs?
